

The maturity value of any such security is the amount payable thereunder either at the maturity date or an earlier call date. The earlier call date of any such security may be the earliest call date specified therein as a day certain, the earliest interest payment date if it is callable or payable at such date, the earliest date at which it is callable at par, or such other call or payment date, prior to maturity, specified in the security as may be selected by the life insurance company. A life insurance company which adjusts amortization of premium or accrual of discount with reference to a particular call or payment date must make the adjustments with reference to the value on such date and may not, after selecting such date, use a different call or payment date, or value, in the calculation of such amortization or discount with respect to such security unless the security was not in fact called or paid on such selected date.

(c) The adjustments for amortization of premium and accrual of discount will be determined:

(1) According to the method regularly employed by the company, if such method is reasonable, or

(2) According to the method prescribed by this section.

A method of amortization of premium or accrual of discount will be deemed "regularly employed" by a life insurance company if the method was consistently followed in prior taxable years, or if, in the case of a company which has never before made such adjustments, the company initiates in the first taxable year for which the adjustments are made a reasonable method of amortization of premium or accrual of discount and consistently follows such method thereafter. Ordinarily, a company regularly employs a method in accordance with the statute of some State, Territory, or the District of Columbia, in which it operates.

(d) The method of amortization and accrual prescribed by this section is as follows:

(1) The premium (or discount) shall be determined in accordance with this section; and

(2) The appropriate amortization of premium (or accrual of discount) attributable to the taxable year shall be

an amount which bears the same ratio to the premium (or discount) as the number of months in the taxable year during which the security was owned by the life insurance company bears to the number of months between the date of acquisition of the security and its maturity or earlier call date, determined in accordance with this section. For the purpose of this section, a fractional part of a month shall be disregarded unless it amounts to more than half a month, in which case it shall be considered as a month.

#### § 1.803-7 Taxable years affected.

Sections 1.803-1 through 1.803-6 are applicable only to taxable years beginning after December 31, 1953, and before January 1, 1955, and all references to sections of part I, subchapter L, chapter 1 of the Code are to the Internal Revenue Code of 1954, before amendments.

[T.D. 6513, 25 FR 12660, Dec. 10, 1960]

#### INVESTMENT INCOME

#### § 1.804-3 Gross investment income of a life insurance company.

(a) *Gross investment income defined.* For purposes of part I, subchapter L, chapter 1 of the Code, section 804(b) defines the term *gross investment income* of a life insurance company as the sum of the following:

(1) The gross amount of income from:

(i) Interest (including tax-exempt interest and partially tax-exempt interest), as described in § 1.61-7. Interest shall be adjusted for amortization of premium and accrual of discount in accordance with the rules prescribed in section 818(b) and the regulations thereunder.

(ii) Dividends, as described in § 1.61-9.

(iii) Rents and royalties, as described in § 1.61-8.

(iv) The entering into of any lease, mortgage, or other instrument or agreement from which the life insurance company may derive interest, rents, or royalties.

(v) The alteration or termination of any instrument or agreement described in subdivision (iv) of this subparagraph.
